## We Claim:

1. A recyclable, one time use, print on demand, digital camera comprising: a chassis carrying:-

5 an image sensor device for sensing an image;

a processing means for processing said sensed image; a pagewidth print head for printing said sensed image; an ink supply means for supplying ink to the print head;

a supply of print media on to which said sensed image is printed; and a casing surrounding and encasing said chassis so that the supply of print

media is unable to be accessed without destruction of the casing.

2. The camera of claim 1 in which the casing comprises two shells, the shells being bonded together during one of a manufacturing process and a recycling process.

- 3. The camera of claim 1 in which the casing is recyclable.
- 4. The camera of claim 1 in the supply of print media is carried via a holder on the chassis and the holder is releasably supported on the chassis to facilitate its removal from the chassis to be replaced by a new supply of print media upon recycling of the camera.
- 5. The camera of claim 4 in which the ink supply means is refilled and a power supply means of the camera is replaced at the same time as the supply of print media is replaced during said recycling of the camera.
  - 6. The camera of claim 5 in which the power supply means is accommodated within the supply of print media.
